From Constraints to Business Value: Building Circular Supply Chains across the Belt and Road Initiative (BRI) with Agentic AI

CIRCULAR SUPPLY CHAINS
Turning constraints into opportunities

AGENTIC AI IN ACTION
Real solutions for real impact

BELT AND ROAD INITIATIVE (BRI)
Regional collaboration for a sustainable future

YOUTH-DRIVEN INNOVATION
Global ideas. Greater impact.

About this Event

The DataDevelop Prize (DDP) 2026 HK Case Competition brings together university teams, industry leaders, policymakers and experts to explore how Agentic AI can create business value by building circular supply chains across the Belt and Road Initiative (BRI).

Through inspiring discussions, innovative case presentations and global collaboration, this event aims to turn real-world constraints into practical solutions for a more sustainable, resilient and inclusive future.

Who Should Attend

- University students and academic teams
- Industry leaders and supply chain professionals
- Brands, retailers and manufacturers
- Policymakers and government representatives
- Researchers, innovators and technology providers
- Sustainability and ESG professionals
- International guests and BRI partner organizations

Event Impact

Accelerate Circularity
Drive practical solutions to reduce waste and promote resource efficiency.

Enable AI-Driven Innovation
Unlock business value through Agentic AI in supply chains.

Strengthen BRI Collaboration
Build cross-border partnerships for sustainable growth.

Empower Future Leaders
Provide a global platform for youth to showcase innovative ideas and drive real change.
